

LA FLEUR DU PRIEURÉ

SAINT-ÉMILION

VINEYARD

Surface: 0,80 hectare

Terroir: sandy-clay and clay-limestone

Planting density: 6,000 vines/ha

Pruning: single Guyot

Grape varieties: 100 % Merlot

Average age of vines: 25 years

Soil work: Ploughing, no chemical weedkiller

Average yield: 51 hl/ha

ENVIRONMENT

Environment is at the heart of the work in the vineyard:

- **Absence of CMR** products
- **Absence of herbicides**
- **HVE** (High Environmental Value) approach
- **Sexual confusion** against cluster worms
- **Autumn seeding** to loosen, decompress, enrich the soil and then used as green manure

VINIFICATION

Harvest: Manual with a sorting table in the cellar

Vinification: Sensible pumping over, carried out with the objective of preserving the fruit

Vatting time: 18 days

Ageing: 12 months (50% in French oak barrels of 2 wines and the other half in temperature-controlled concrete vats)

Bottling: At the Château
